INDIA Carbon Market CONCLAVE 2012

India's International Forum for Climate Policy and Carbon Markets

September 12-13, 2012
Hotel Shangri-La, New Delhi

The sixth annual India Carbon Market Conclave - the largest platform to engage with the Indian carbon market - will be held on September 12-13, 2012 at Hotel Shangri-La in New Delhi. The Conclave is India's flagship event in the carbon market space, organized by the *Federation of Indian Chambers of Commerce and Industry (FICCI)* in partnership with the Ministry of Environment & Forests (MoEF), Government of India, The World Bank and International Emissions Trading Association (IETA). This year we have a new partner - The *Federal Ministry for the Environment, Nature Conservation and Nuclear Safety (BMU)* of the Federal Republic of Germany, supported by GIZ India.

India Carbon Market Conclave provides an all-inclusive forum for global carbon market stakeholders to engage with Indian project developers, and for Indian carbon market stakeholders to interface with the global mainstream. It is a platform for sharing knowledge on current trends and emerging scenarios of the global and Indian carbon markets, and a forum for deliberations on domestic and international policy on climate change and the carbon market.

INDIA CARBON MARKET CONCLAVE 2012

Conference Themes

- India's National Action Plan on Climate Change (NAPCC) - Current Scenario & Outlook
- Strategy for Nationally Appropriate Mitigation Actions (NAMAs)
- International Negotiations: State of Play from Durban to Doha
- Future of CDM & New Instruments: How can India benefit from it
- Technology Mechanism
- Green Climate Fund: How to operationalize and use it
- South - South Co-operation
- Unilateral Measures for Climate Change including Aviation and Maritime
- Role of Sub-National Governments in Climate Change Action
- Business Leaders' Outlook on Low Carbon Growth

Objectives

- To provide a platform for policy dialogue on the international and domestic policy processes related to climate change and the carbon market, and for knowledge sharing on emerging scenarios of the global and Indian carbon markets
- To provide an effective and all-inclusive platform for global carbon market stakeholders to engage with a large number of Indian project developers, and for Indian carbon market players to interface with the global mainstream
- To provide a platform for capacity building and growth of the Indian CDM project pipeline through knowledge sharing and information dissemination for new and prospective entrants to the carbon market
- To showcase Indian carbon projects and provide a platform for Indian companies to reach out to carbon market buyers, investors and financiers

Target Audience

- Industry
- Banks and financial institutions
- Brokerage firms
- CDM Project developers
- Carbon credit buyers
- Consultants, validators, verifiers
- Carbon market advisory firms
- Credit rating agencies
- Central and State Government ministries, departments and agencies
- Carbon market exchanges
- Carbon market research / communications / media firms
- Industry associations
- Multilateral and bilateral agencies
- Municipal corporations and other urban local bodies
- Legal firms
- Potential project proponents
- Renewable energy companies
- Technology and equipment suppliers

Benefits to Stakeholders

The India Carbon Market conclave offers a business, networking and knowledge platform for carbon market players, a forum for accelerated and effective business decision-making, an opportunity to identify real projects with financing needs, a platform for engaging with the largest gathering of project developers in India and an opportunity to conduct carbon business transactions.

Benefits for Buyers and Investors

- Interact with a vast number of companies with projects at different stages of development in one place
- Present the offerings for the project developers and the expectations from the market
- Interact with project developers from neighbouring countries
- Identify projects that offer real carbon emissions reductions

Benefits for Project Developers

- Interface with leading buyers and carbon market investors from all over the world
- Get a detailed insight on the current global carbon market and future outlook
- Gain knowledge on international and domestic market mechanisms
- Have one-to-one meetings with buyers of carbon credits and investors
- Reach out to the global buyers and investors by showcasing your project

Special Features

ICMC offers exclusive features to its participants to facilitate **promotion, networking and capacity building**

EXHIBITION

A dedicated exhibition space to display your services, technologies, projects and products

MASTER-CLASS ON PoA DEVELOPMENT: September 13, 2012 from 8:20 am to 9:50 am at ICMC venue

GIZ and KfW Master Session on PoA (Programme of Activities) Development will offer project developers from India and other developing country participants an update on PoA development with a special focus on CPA (CDM Programme Activity) management and emission reduction accounting. The master class will present tools, trainings and support programmes for PoA development in Asia.

The Past Conclaves

The maiden India Carbon Market Conclave was launched in November 2007, as an all-inclusive forum for carbon market players. The Conclave since its inception has evolved into a platform to meet project developers from the region, conduct carbon business, hear climate change negotiators and gain visibility in the carbon market space.

Year after year ICMC has attracted delegates from world over:

Afghanistan	Denmark	Malaysia	Philippines	Switzerland
Australia	Finland	Maldives	Poland	Thailand
Austria	France	Nepal	Senegal	Togo
Bangladesh	Germany	Netherlands	Singapore	UAE
Belgium	Italy	Norway	South Korea	UK
Bhutan	Japan	Oman	Spain	USA
China	Kenya	Pakistan	Sri Lanka	

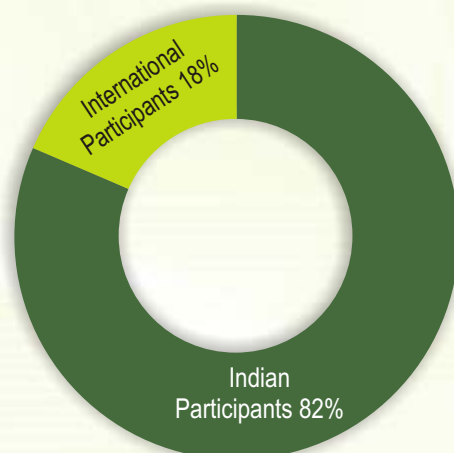

South-South Cooperation

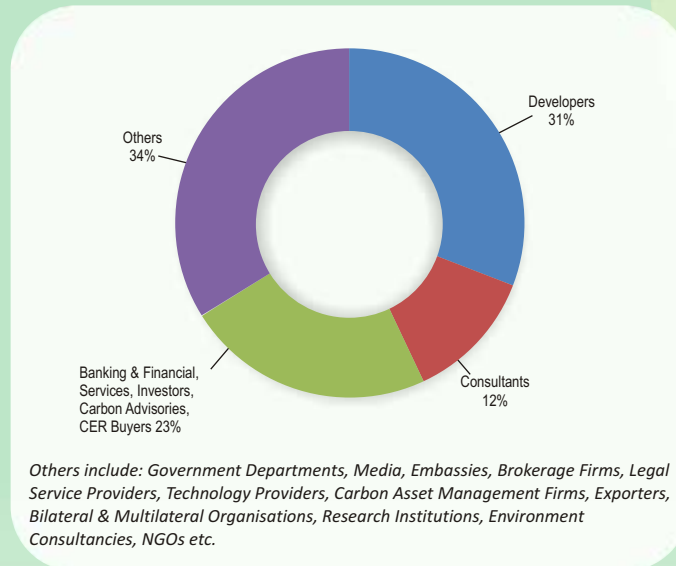

ICMC 2012 will also have participation from developing countries, including from the South Asia region

Participation profile at ICMC 2011

In 2011, there were international participants from 12 countries: Netherlands, Australia, Bhutan, Denmark, Germany, Japan, Kenya, Philippines, Switzerland, Thailand, UK & USA.

Participation of different stakeholders in ICMC 2011

Industry Participants included representations from -

- Agriculture • Aviation • Biomass • Cement • Chemicals • EPCs • Fertilizers • FMCG • Food & Beverages
- Infrastructure • Iron & Steel • Hydro Power • IT Products & Services • Mass Urban Transport • Mining
- Oil & Natural Gas • Packaging industry • Paper & Pulp • Power • Solar Energy • Sugar & Distillery
- Textiles • Waste Management • Wind Energy

Mr Jairam Ramesh, Former Minister of State for Environment & Forests, Government of India at ICMC 2009

Ms Christiana Figueres, Executive Secretary, UNFCCC at ICMC 2010

Dr Tishyarakshit Chatterjee, Secretary, Ministry of Environment and Forests, Government of India at ICMC 2011

Federation of Indian Chambers of Commerce and Industry (FICCI)

FICCI, the apex industry organisation in India, is the leader in policy thinking and change and is in the vanguard of nation building. Established in 1927 and with a nationwide membership of over 1500 corporates and over 500 chambers of commerce and business associations, FICCI espouses the shared vision of Indian businesses and speaks directly and indirectly for over 2,50,000 business units. It has an expanding direct membership of enterprises drawn from large, medium, small and tiny segments of manufacturing, distributive trade and services. FICCI maintains the lead as the proactive business solution provider through research, interactions at the highest political level and global networking. It is constantly involved in bringing about integration of the Indian economy with the global mainstream. FICCI facilitates business-to-business linkages, promotes trade and investment linkages, creates awareness on key issues for the economy, provides inputs for policymaking, acts as a conduit for government-industry exchange and promotes bilateral ties.

FICCI's Expert Committees and Task Forces, headed by leading Industrialists, regularly meet to discuss the current issues. Joint Business Councils (JBCs), FICCI's track two business diplomacy with India's trading partners, open up new business opportunities to Indian businessmen with overseas investors, technology suppliers, multilateral and bilateral funding agencies.

In the area of climate change and carbon market, FICCI has been creating widespread stakeholder awareness in India and familiarizing stakeholders with the core issues and challenges confronting them. FICCI is involved in promoting policy dialogue nationally and internationally, facilitating stakeholder platforms, performing in depth research and analysis on climate change policy and connecting Indian carbon market with global mainstream. FICCI has a Climate Change Task Force, which serves as the voice of Indian industry on domestic and international policy and regulatory issues pertaining to climate change and carbon market. FICCI has been promoting Indian business interest in the global carbon market.

FICCI is an accredited observer organization under the United Nations Framework Convention on Climate Change (UNFCCC)

For more details, please visit www.ficci.com

World Bank Institute's Climate Change Practice

World Bank Institute's Climate Change Practice identifies and fosters the implementation of regional and local solutions to address the global challenge of climate change. WBI Climate Change Practice connects climate practitioners and networks as an international 'Go-To-Place' for learning and knowledge sharing on climate change. WBICC integrates and packages the best available knowledge on adaptation and mitigation from within and outside the World Bank. Using South-South learning, knowledge exchange, networks, and innovative platforms WBICC shares knowledge with constituencies from around the world. The practice currently includes capacity building in the following areas: cities and climate change, innovations in carbon and climate finance, and climate adaptation for water, agriculture, and natural resource management.

International Emissions Trading Association (IETA)

IETA is dedicated to the objectives of the United Nations Framework Convention on Climate Change and ultimately climate protection through the establishment of effective market-based trading systems for greenhouse gas emissions by businesses that are demonstrably fair, open, efficient, accountable and consistent across national boundaries; and maintaining societal equity and environmental integrity while establishing these systems. IETA works towards developing an active, global greenhouse gas market, consistent across national boundaries and involving all flexibility mechanisms such as the Clean Development Mechanism, Joint Implementation and emissions trading and creating systems and instruments that will ensure effective business participation.

IETA is a not-for-profit business organization representing 160 companies out of which 51% represent project developers, intermediaries, financial institutions, brokers, verifiers, legal firms, etc engaged in a new economic activity as a result of the GHG market. The balance of 49% represents industrial organizations that will want to use CERs to meet existing or future regulatory constraints.

The Federal Ministry for the Environment, Nature Conservation and Nuclear Safety (BMU)

The Federal Ministry for the Environment, Nature Conservation and Nuclear Safety (BMU) is the branch of the German government in charge of climate change policies.

With its CDM/JI Initiative, the German Environment Ministry aims at fostering carbon reduction projects worldwide. It focuses on one hand on large emerging economies like India. On the other hand it cooperates with lower middle income countries and has a growing portfolio of activities with Least Developed Countries (LDCs). From 2013 onwards, BMU's support for CDM activities will focus on LDCs, while in other partner countries, like India, the relevance of new market-based mechanisms will be explored. Promoting the programmatic CDM and JI are key priorities of BMU as they should be designed as a bridge to more encompassing new market-based mechanisms and nationally appropriate mitigation actions (NAMAs).

Another form of cooperation is BMU's International Climate Initiative (ICI) which supplements existing German development cooperation: The ICI supports projects on mitigation, adaptation, biodiversity and REDD+. It has been financing climate protection projects in developing and newly industrialising countries as well as in transition countries worldwide. The ICI receives funding from emissions trading and thus represents an innovative financing mechanism to support partner countries in the area of climate protection.

GIZ - Broad-based expertise for sustainable development

The services delivered by the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH draw on a wealth of regional and technical expertise and tried and tested management know-how. As a federal enterprise, we support the German Government in achieving its objectives in the field of international cooperation for sustainable development. We are also engaged in international education work around the globe.
